# IMPROVING LIVES

VOLUNTEERING COURSE

Voluntary Action Coventry has over 20 years experience of supporting organisations that involve volunteers, and individuals wanting to volunteer for a variety of reasons. We know that volunteering is a great way to improve people's lives, from increasing confidence and self-esteem, improving mental and physical health and well being, tackling isolation and loneliness, to supporting people into employment by gaining new skills and experience.

## What you will gain from the course:

- Know more about the different volunteer and community groups and services available in Coventry.
- Identify the benefits of volunteering for well being and how you can use volunteering experience to transition into employment.
- Participate in group visits/volunteering activities to different organisations that involve volunteers.
- Set goals and plan your volunteering and/or employment journey.
- Gain support to develop a CV and to practise application forms and interviews.

*“Taking part in the course has given me the opportunity to look at voluntary roles that I would not have considered. By participating in Improving Lives I have improved on my existing skills, for example realising my strengths and weaknesses, working together as a team, using fun learning tools, and listening to and sharing opinions. I would highly recommend this Improving Lives course for anyone”*

*Previous Improving Lives participant.*
