Coventry City Council's – Skills, Employment and Adult Education Projects

Funded by
UK Government

West Midlands
Combined Authority

This project is part funded by the UK Government through the UK Shared Prosperity Fund

Voluntary Action Coventry has over 60 years experience of supporting organisations that involve volunteers, and individuals wanting to volunteer for a variety of reasons. We know that volunteering is a great way to improve people's lives, from increasing confidence and self-esteem, improving mental and physical health and wellbeing, tackling isolation and loneliness, to supporting people into employment by gaining new skills and experience.

What you will gain from the course:

- Know more about the different volunteer and community groups and services available in Coventry.
- Identify the benefits of volunteering for wellbeing and how you can use volunteering experience to transition into employment.
- Participate in group visits/volunteering activities to different organisations that involve volunteers.
- Set goals and plan your volunteering and/or employment journey.
- Gain support to develop a CV and to practice application forms and interviews.

"Taking part in the course has given me the opportunity to look at voluntary roles that I would not have considered. By participating in Improving Lives I have improved on my existing skills, for example realising my strengths and weaknesses, working together as a team, using fun learning tools, and listening to and sharing opinions.

I would highly recommend this Improving Lives course for anyone"

Previous Improving Lives participant.
